

JOANNES AZHINWI

Yaounde, Cameroon

Joannesazhinwi60@gmail.com · <http://joannesazhinwi60.kesug.com/>

My professional objective is to apply my versatile skill set encompassing data entry, web development, web design, and graphic design to deliver comprehensive and innovative solutions. With a meticulous approach to data management, proficiency in frontend and backend web development, a keen eye for design aesthetics, and expertise in creating visually appealing graphics, I aim to contribute to projects that require a blend of technical proficiency and creative design flair.

EXPERIENCE

02/10/2022 – PRESENT

THE ICT UNIVERSITY

In my role as a web developer, my responsibilities included crafting personalized websites that reflected each client's brand identity, ensuring responsiveness across devices, collaborating closely with clients to capture their vision.

04/08/2023 – 06/07/2024

CITADEL SCHOOL

During my tenure as an ICT and web development educator at a secondary school, I spearheaded a successful program that empowered students with essential skills and knowledge in information and communication technology as well as web development.

FORMATION

2025

BACHELORS, THE ICT UNIVERSITY

With your educational background, I have acquired a solid foundation in software design, development, testing, and maintenance. My degree signifies your expertise in programming languages, algorithms and many more.
